

TEAM HUMMER

Located in Pasadena on East Colorado Boulevard, this stimulating building sweeps the skyline with a clean, arched roofline. Combs + Miguel worked in association with Berliner and Associates to complete this project for Hummer dealerships. An elegant tower that contrasts the roof's curved shape focuses on the main entrance. Built to compliment the

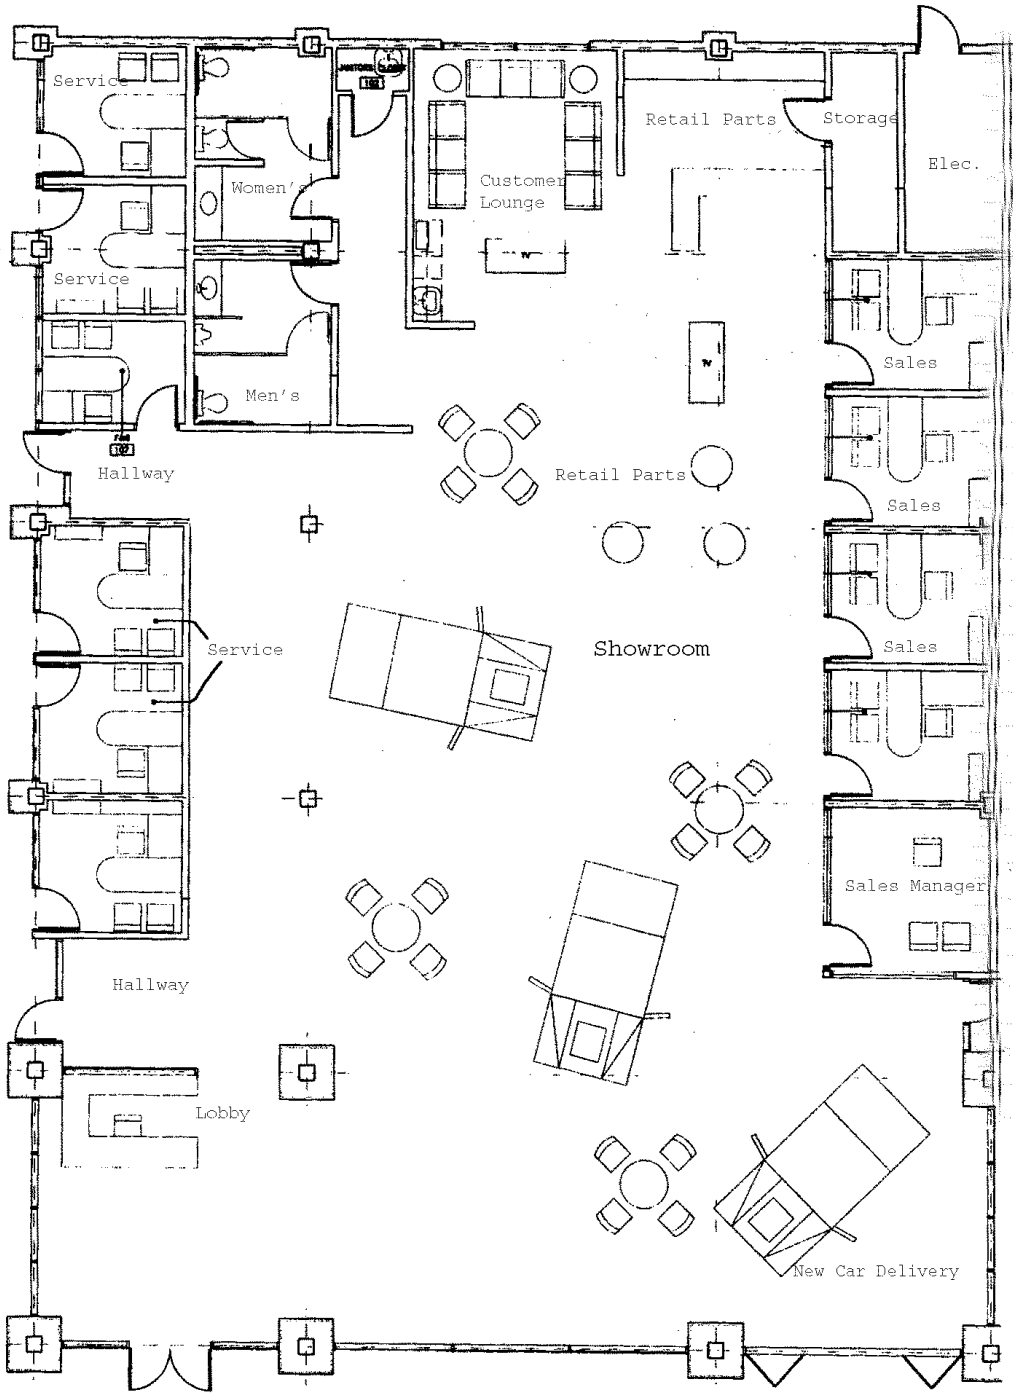

Hummer vehicle's unique lines and body, this building shows the cars off and attracts attention equally. This 49,000 square foot building effectively uses space to show off the large and impressive vehicles while maintaining a capable working space where customers and employees can both be present and be comfortable.
