

## TRAN RESTAURANT

**D**esigned to create a quaint dining space in a relaxed setting, Tran Restaurant embraces Southern California weather with an outdoor courtyard and patio seating. Drawing attention to the corner with a circular tower as the entrance, this design provides patrons with a dining area that frames the outdoor view with large picture windows. The exterior façade mimics

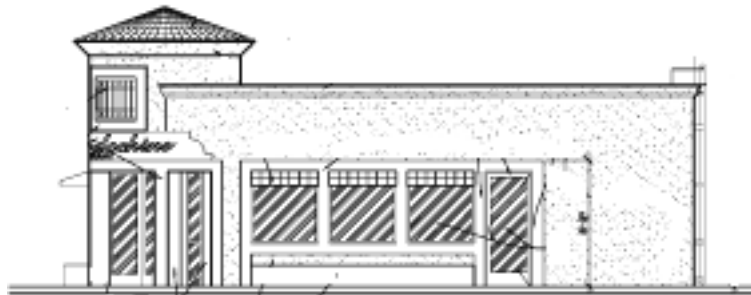

the circular form found in the tower and is accented with warm stucco colors and vibrant awnings. Built-in planters allow some organic beauty and color to enrich the site. Designed for the downtown Newhall area, this restaurant emulates the surrounding buildings in its Mission-Style design while remaining its own entity.
